PROFILE

Digital Science and Technology student at Mahidol University seeking a software engineering, backend, or data internship. Built and deployed two live full-stack systems: a no-code bot platform on Rust WebAssembly and a geospatial platform for Bangkok's urban heat.

TECHNICAL SKILLS

Programming: Python, TypeScript, JavaScript, Java, SQL
Web Development: HTML, CSS, Node.js, Web Services
Databases: PostgreSQL, MySQL, Supabase
Data and Modeling: ER modeling, relational database design, data validation
Tools: Git, GitHub, VS Code

PROJECTS

HEAT//SHIFT - Live Pilot

Python | FastAPI | Next.js | PostgreSQL/PostGIS | Redis/Celery | MapLibre | *GitHub Repository* | *Live Website*

- Built and deployed a map-first platform for planning heat mitigation investment across Bangkok's 50 districts.
- Designed a six-stage pipeline (staging, validation, processing, publishing, cache invalidation, live client updates) that monitors seven real sources, including Landsat 8/9, Sentinel-2, Dynamic World, WorldPop, and OpenStreetMap.
- Built versioned PostGIS datasets, a budget optimizer with Google OR-Tools, and evidence reports showing data versions, uncertainty, and stale-result warnings; admin tools are protected by OIDC single sign-on.
- Runs 24/7 on free-tier cloud hosting at $0 cost.

WasmBot Studio

TypeScript | React | Supabase | PostgreSQL | Rust WebAssembly | *GitHub Repository* | *Live Website*

- Built a no-code platform for creating rule-based business bots with a visual AND/OR editor supporting 12 operators.
- Designed versioned deployments with immutable snapshots and secured data using Supabase Auth, PostgreSQL row-level security, scoped API keys, and rate limiting.
- Integrated a Rust WebAssembly rule engine with seven Supabase Edge Functions and validated the deployed system through automated and end-to-end testing.

EDUCATION

Mahidol University | **2025 - Present**
Faculty of Information and Communication Technology
Bachelor of Science in Digital Science and Technology | GPA 3.08
Relevant Coursework: Database Systems, Data Structures, Web Programming, Object-Oriented Programming

Klaeng Wittayasathaworn School | **2022 - 2025**
Secondary Education

EXPERIENCE AND ACTIVITIES

MUICT Open House - Guest Relations | Mahidol University | 2026
Raknong G2 - Staff | Mahidol University | 2026

LANGUAGES

Thai: Native | English: Intermediate
