PROFILE

Digital Science and Technology undergraduate at Mahidol University seeking an internship in software engineering, data, or IoT. Hands-on project experience includes web applications, APIs, relational and geospatial databases, and deployed systems.

TECHNICAL SKILLS

Programming: Python, Java, TypeScript, JavaScript, SQL
Web Development: HTML, CSS, Node.js
Databases: MySQL, PostgreSQL, PostGIS
Data and Modeling: ER modeling, relational database design, data validation, geospatial data
Tools: Git, GitHub, VS Code

PROJECTS

HEAT//SHIFT - In Development

Python | PostgreSQL | PostGIS | Geospatial Data | GitHub (Private)

- Developing a map-first platform to support urban heat mitigation investment planning in Bangkok.
- Designed a six-stage workflow for data staging, validation, processing, publishing, cache invalidation, and client updates.
- Built versioned PostgreSQL/PostGIS datasets, a City Optimizer, and evidence reports showing data versions, uncertainty, and stale-result warnings.

WasmBot Studio

TypeScript | React | Supabase | PostgreSQL | Rust WebAssembly | GitHub Repository | Website

- Built a no-code platform for creating rule-based business bots with a visual AND/OR editor supporting 12 operators.
- Designed versioned deployments with immutable snapshots and secured data using Supabase Auth, PostgreSQL row-level security, scoped API keys, and rate limiting.
- Integrated a Rust WebAssembly rule engine with seven Supabase Edge Functions and validated the deployed system through automated and end-to-end testing.

EDUCATION

Mahidol University | **2025 - Present**
Faculty of Information and Communication Technology
Bachelor of Science in Digital Science and Technology | GPA 3.08

Klaeng Wittayasathaworn School | **2022 - 2025**
Secondary Education

EXPERIENCE AND ACTIVITIES

MUICT Open House - Guest Relations | Mahidol University | 2026
Raknong G2 - Staff | Mahidol University | 2026

LANGUAGES

Thai: Native | English: Intermediate
